Kaj Bangla Employment Service RL-1345

I believe in people. None of us could be successful without them. That's because, no matter what we do, it's people who drive every aspect of our business. Even after a few years in the recruiting industry, I'm driven to do more for people. That's one reason I founded Human Resource consultant firm. My vision is to bring together all aspects of the people side of their creativity.

Because the right work-life balance is different for every individual, a company policy or program cannot create it or manage it. Each individual must do that for him or herself, working with a boss that has the right leadership mindset and skill set as well.

Since 2016, Kaj Bangla Employment Service is operated on the track of honesty, transparency and ethics. We offer Overseas Manpower Recruitment & Management Services and Human Resource Services to sufficient the patron's human resource requirements in world class pattern. To carry out the recruitment assignments in efficient and professional manner, we have appointed a well qualified and experienced team of consultants for recruitment domain and Human Resource Department.

In all our actions as a group and as individuals, representing this group we maintain integrity both in financially and professionally. Trust and honesty in our each action between us, our customers and our stake holders. We always role on challenges with taking them and competing them in a sufficient way with extreme ability and determination.

About Kaj Bangla Employment Service

Kaj Bangla Employment Service is one of the leading Governments approved Manpower Agencies having receving License No.1345 in Bangladesh registered under the Ministry of Expatriates' Welfare & Overseas Employment which facilitates professionally managed outflow of work force from Bangladesh to abroad. Kaj Bangla Employment Service, a foremost conglomerate of Bangladesh, is also a member of Bangladesh Association of International Recruiting Agencies (BAIRA). In spite of numerous recruitment agencies in Bangladesh, Kaj Bangla Employment Service realized that there was a need for a professionally managed recruitment agency to bridge the gap between opportunities and the opportunity seekers and thus the company came into existence. It's a new generation Recruiting Agency with a commitment. The company's overall stance has been to goal out for excellence and thus become the principal source of competitive, efficient and reliable human resource solutions provider.

For Kaj Bangla Employment Service social responsibility extends well beyond just writing a donation check to a charitable cause. It's about strengthening the diversity of our communities and creating opportunities for all people to participate in the work force. It's about focusing on the long-term view and developing solutions that are sustainable, whether it's helping an unemployed youth to join the work force or finding an engineer a job abroad. Our reward comes from knowing that we make a real difference today and future because of our relationships with both employers and individuals. We are uniquely positioned to determine where current and future skills gaps are, identify people who need help engaging with the work force, and develop solutions that bring these two groups together, mutually benefiting both. In this way, we function as a "bridge" to employment for many who would otherwise be unemployed.

Kaj Bangla Employment Service has always considered human resources to be the only appreciating asset of our country and it is obligated to source quality human resources to its valued partners. Kaj Bangla Employment Service will develop its own training center where candidates will train up for foreign companies. Candidates seeking overseas employment face problem with jobs, professional environment, language, culture, norms, gestures, postures and many other aspects. These aspects would be taken due care of in our systems, Programs and policies are designed to make the connection to work a viable option for those who need it. Our industry leading skills assessment processes and hiring policies help us ensue that people are not discriminated rather we focus on peoples' abilities –not their disabilities.
